

PortVision Advantage increases the power of PortVision by adding powerful data analytics, historic reporting, and animated event playback. PortVision Advantage empowers users with up to 5 years of historic vessel and terminal data, with web-based tools to help make the most of that data.

- Reduce demurrage
- Increase resource utilization
- Support market research
- Identify sources of spills, dock, and ATON damage
- Increase compliance by vendors, service providers, and waterway users
- Streamline negotiation, litigation, and dispute resolution activities
- Review historic events and incidents
- Identify best practices
- Use for training

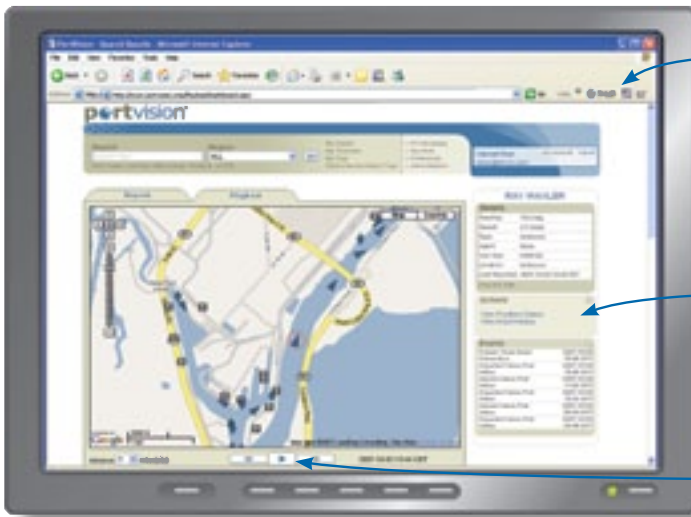

Features

- Over a dozen historic reports by port/region, vessel, terminal, or point-of-interest
- Export report output to PDF, XML, CSV, and Excel formats
- On-screen animated playback by vessel or terminal. Replay history by viewing the animation, then automatically produce documentation as required
 - Access up to 5 years of historic data of all vessel movements and arrival, departure, and passing events.¹

¹ Applies to AIS-equipped vessels in covered service areas

Animated Playback

Play Back History

Pick a day and time, and then a vessel, terminal or point-of-interest. Watch as PortVision recreates history, displaying all vessel movements and arrival/departure events for the selected period. Review waterway incidents, dock damage, and all interactions between vessels, terminals, and points-of-interest.

Documentation On Demand

While viewing the animation, click to produce comprehensive documentation to support compliance, enforcement, negotiation, or litigation activities.

You're In Control

Review history forward and backward as required. Zoom and pan as needed. Play from 1 minute to 4 hour intervals. See all arrival and departure events as they occurred.

Historic Reports And Analytics

Web-based Reports

Select from over a dozen historic reports by vessel, terminal, port/region, and point-of-interest. Use reports for market research, training, compliance, dispute resolution, demurrage reduction, investigations, management briefings, and much more.

- **Drill-down To Details**

Hyperlinks in each report allow you to drill-down to see the details behind the numbers.

- **Bring Reports To Life**

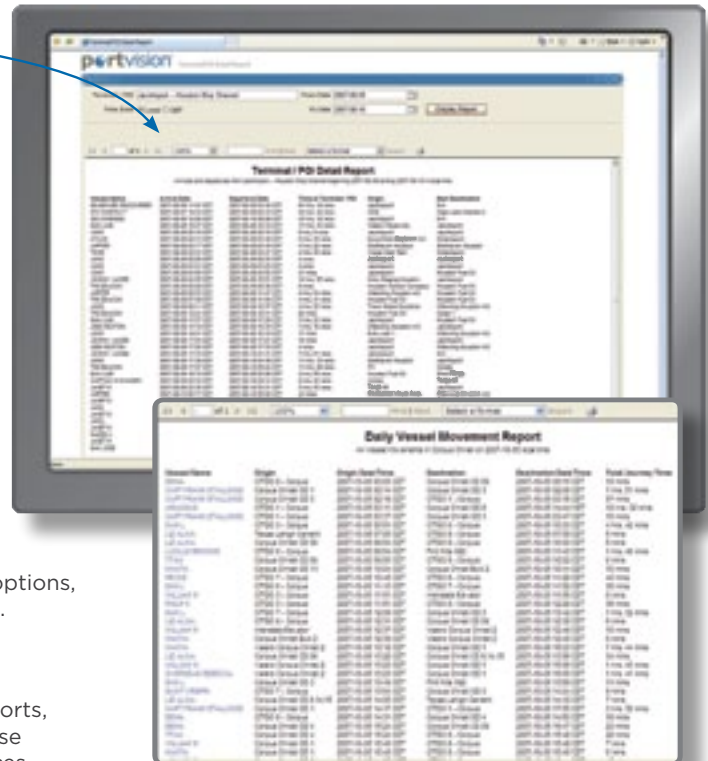

If you want to see more, simply click on any time/date field on the report to launch PortVision's animated playback. Switch easily between the printed report and interactive playback.

- **Take It With You**

Choose from a number of report export options, including PDF, Excel, CSV, TIFF, and XML. Or simply direct report to your printer.

- **Have A Special Need?**

Contact us for details on custom reports, system integration, incident response support, and expert witness services.
